## Step 6. Physician Attestation for Amicus PAP and Bridge Programs

The Amicus Patient Assistance Program (PAP) provides free medication to eligible uninsured or underinsured patients. The Bridge Program provides a limited supply of free drug to eligible patients who experience a delay in insurance reapproval.

I certify that any medications supplied by Amicus under the Amicus PAP Program and the Bridge Program (together, the "Programs") will be provided at no cost to the eligible, enrolled patient named on this form for an FDA-approved indication only and shall not be sold, traded, bartered, transferred, returned for credit, or submitted to any third party (including federal health care programs such as Medicare and Medicaid) for reimbursement. I certify that I will maintain free POMBILITI and OPFOLDA received from the Programs separately from commercial inventory, administer POMBILITI and OPFOLDA only to the enrolled patient named on this form, and discard unused amounts in open vials or bottles. If the enrolled patient is no longer on therapy or otherwise cannot use the POMBILITI and OPFOLDA provided through the Programs, I agree to promptly contact AMICUS ASSIST to arrange for product return or disposal. I understand that eligibility under these Programs is subject to Amicus' approval and the patient's and provider's continuing compliance with all eligibility and Program requirements, as set by Amicus from time to time. I agree to provide Amicus, or its authorized agent(s), access to the medical, financial and insurance records that this patient has authorized (in a signed, written authorization) me to disclose to Amicus and its authorized representatives for the purposes of verifying the patient's eligibility status for the Program and the patient's receipt of any product(s) provided to him or her through the Program.

### SELECT IMPORTANT SAFETY INFORMATION

#### HYPERSENSITIVITY REACTIONS INCLUDING ANAPHYLAXIS

Patients treated with POMBILITI have experienced life-threatening hypersensitivity reactions, including anaphylaxis. Appropriate medical support measures, including cardiopulmonary resuscitation equipment, should be readily available during POMBILITI administration. If a severe hypersensitivity reaction (e.g., anaphylaxis) occurs, POMBILITI should be discontinued immediately, and appropriate medical treatment should be initiated. In patients with severe hypersensitivity reaction, desensitization measures to POMBILITI may be considered. The risks and benefits of readministering POMBILITI following severe hypersensitivity reaction should be considered. If mild or moderate hypersensitivity reaction occurs, the infusion rate may be slowed or temporarily stopped. Prior to POMBILITI administration, consider pretreating with antihistamines, antipyretics, and/or corticosteroids.

Please see IMPORTANT SAFETY INFORMATION throughout and on [page 3](#) and see full [Prescribing Information](#), including **BOXED WARNING**, for POMBILITI and full [Prescribing Information](#) for OPFOLDA, also available at [PombilitiOpfoldaHCP.com](http://PombilitiOpfoldaHCP.com).

## IMPORTANT SAFETY INFORMATION

**WARNING: SEVERE HYPERSENSITIVITY REACTIONS, INFUSION-ASSOCIATED REACTIONS, and RISK OF ACUTE CARDIORESPIRATORY FAILURE IN SUSCEPTIBLE PATIENTS**

### HYPERSENSITIVITY REACTIONS INCLUDING ANAPHYLAXIS

Patients treated with POMBILITI have experienced life-threatening hypersensitivity reactions, including anaphylaxis. Appropriate medical support measures, including cardiopulmonary resuscitation equipment, should be readily available during POMBILITI administration. If a severe hypersensitivity reaction (e.g., anaphylaxis) occurs, POMBILITI should be discontinued immediately, and appropriate medical treatment should be initiated. In patients with severe hypersensitivity reaction, desensitization measures to POMBILITI may be considered. The risks and benefits of readministering POMBILITI following severe hypersensitivity reaction should be considered. If mild or moderate hypersensitivity reaction occurs, the infusion rate may be slowed or temporarily stopped. Prior to POMBILITI administration, consider pretreating with antihistamines, antipyretics, and/or corticosteroids.

### INFUSION-ASSOCIATED REACTIONS (IARs)

Patients treated with POMBILITI have experienced severe IARs. If severe IARs occur, immediately discontinue the POMBILITI infusion, initiate appropriate medical treatment, and assess the benefits and risks of readministering POMBILITI following severe IARs. If mild or moderate IARs occur regardless of pretreatment, decreasing the infusion rate or temporarily stopping the infusion may ameliorate the symptoms. IARs may still occur in patients after receiving pretreatment.

Patients with an acute underlying illness at the time of POMBILITI infusion may be at greater risk for IARs. Patients with advanced Pompe disease may have compromised cardiac and respiratory function, which may predispose them to a higher risk of severe complications from IARs.

### RISK OF ACUTE CARDIORESPIRATORY FAILURE IN SUSCEPTIBLE PATIENTS

Patients susceptible to fluid volume overload, or those with acute underlying respiratory illness or compromised cardiac or respiratory function for whom fluid restriction is indicated may be at risk of serious exacerbation of their cardiac or respiratory status during POMBILITI infusion. More frequent monitoring of vitals should be performed during POMBILITI infusion in such patients.

### CONTRAINDICATION

POMBILITI in combination with OPFOLDA is contraindicated in pregnancy.

### EMBRYO-FETAL TOXICITY

Based on findings from animal reproduction studies, POMBILITI in combination with OPFOLDA may cause embryo-fetal harm when administered to a pregnant female and is contraindicated during pregnancy. Verify the pregnancy status in females of reproductive potential prior to initiating treatment with POMBILITI in combination with OPFOLDA. Advise females of reproductive potential to use effective contraception during treatment with POMBILITI in combination with OPFOLDA and for at least 60 days after the last dose.

### RISKS ASSOCIATED WITH POMBILITI AND OPFOLDA

POMBILITI and OPFOLDA must be administered in combination.

### ADVERSE REACTIONS

The most common adverse reactions ( $\geq 5\%$ ) reported in the pooled safety population of patients treated with POMBILITI in combination with OPFOLDA in the 3 clinical trials were headache, diarrhea, fatigue, nausea, abdominal pain, and pyrexia.

To report SUSPECTED ADVERSE REACTIONS, contact Amicus Therapeutics at [1-877-4AMICUS](tel:1-877-4AMICUS) or FDA at [1-800-FDA-1088](tel:1-800-FDA-1088) or [www.fda.gov/medwatch](http://www.fda.gov/medwatch).

### LACTATION

Advise females that breastfeeding is not recommended while on treatment with POMBILITI in combination with OPFOLDA.

### INDICATION

POMBILITI in combination with OPFOLDA is indicated for the treatment of adult patients with late-onset Pompe disease (lysosomal acid alpha-glucosidase [GAA] deficiency) weighing  $\geq 40$  kg and who are not improving on their current enzyme replacement therapy (ERT).

## PRIVACY AUTHORIZATION

By signing below, I authorize my physician, identified on page 1 of this Referral Form, and their staff to use and disclose my medical and insurance information, including but not limited to the information on this Referral Form and including information deemed relevant by my physician that may be considered sensitive or specially protected under state law, to Amicus and its affiliates (“Amicus”) and contractors (“Contractors”) in order to: (1) facilitate the filling of my prescription for and the delivery and administration of POMBILITI and OPFOLDA, (2) enroll me in AMICUS ASSIST and provide that assistance, administer the AMICUS ASSIST program, (3) conduct certain activities with my de-identified data as described further below, and (4) address adverse events and product quality complaints.

I understand that information disclosed pursuant to this Authorization may be re-disclosed by Recipients. Such re-disclosed information may no longer be protected by federal or state medical privacy laws, including the Health Insurance Portability and Accountability Act or “HIPAA.” I understand that I may refuse to sign this Authorization and such refusal will not affect my ability to receive my Amicus medication, my treatment, payment for treatment, enrollment in a health plan or eligibility for benefits, but it will limit my ability to receive support services from Amicus and its Contractors, including enrollment into the Copay Assistance Program. I understand that I may revoke this Authorization at any time by sending written notice to the address below. If I revoke my Authorization, Amicus and its Contractors will stop using and disclosing my information as soon as possible, but it will not affect prior use or disclosure of my information made in reliance on this Authorization. This Authorization will expire in 10 years after the date it is signed unless a shorter period is mandated by state law or I revoke or cancel my Authorization by contacting Amicus in writing.

## ENROLLMENT INTO AMICUS ASSIST

By signing below, I confirm my wish to enroll in AMICUS ASSIST and authorize Amicus and its affiliates (“Amicus”) and contractors (“Contractors”) to use and disclose my information to my healthcare providers, insurers, pharmacy, and patient assistance programs regarding my participation in AMICUS ASSIST or as otherwise required for Amicus to meet its legal obligations. For example, Amicus and its Contractors may communicate with me by mail, email, and/or telephone or text message\* to enroll me in, and administer, programs that provide POMBILITI and OPFOLDA support services, provide me with free educational and product-related information and resources, and conduct quality assurance, surveys, and other internal business activities in connection with POMBILITI and OPFOLDA and POMBILITI and OPFOLDA support services. I understand Amicus may de-identify my information, combine it with information about other patients, and use the resulting information for Amicus's business purposes, including external communications. I understand that the services provided by Amicus that I have agreed to, and that are described in this Authorization, may be reduced or terminated at any time, without prior notice.

I understand that my pharmacy, health insurer(s), or healthcare providers may receive remuneration from Amicus for disclosing pursuant to this Authorization certain personal and medical information related to the AMICUS ASSIST activities conducted on my behalf so that Amicus may administer, assess and improve the quality of services being provided to patients. I also understand that my pharmacy may receive remuneration from Amicus for administering some of the services which are described above.

I am aware that I can review the Amicus Privacy Policy, including information for California residents, by visiting [www.amicusrx.com/privacy-policy](http://www.amicusrx.com/privacy-policy). I have received a copy of this Authorization. I understand that I may contact AMICUS ASSIST to obtain a copy of this form.

By checking here, I consent to receiving text messages to the phone number(s) I provide below. I understand that my telephone provider may charge me fees for automated calls or texts I receive, and I agree that Amicus will not pay those fees. I may revoke this authorization by replying STOP to any such text or by contacting Amicus in writing at the address below.
